

1/15/07

Dear CWAUG Members and Mac Users,

During the past year our users group has had significant news and information to report to the Central Wisconsin Apple Macintosh Computer users. The basic programs included in new Apple Mac computers OS 10.4 have been demonstrated. The presenters of some of the programs like iPhoto, iCal, iTunes, showed us some new prompts and finesses that were not known. Whenever we were blessed with a new user, who desires to learn a Mac application, a demo was given during our meetings. A monthly report of Apple news bulletins was made available to all meeting attendees. Paid members were given discount offers at our meetings along with free raffles totaling over \$600.00.

We obtained an Apple store sponsor called HappyMac of Wausau who supports us by creating a link on our web site called HappyMac Forums. Members get free delivery and pickup for services and sales at the store within our reach. A special meeting of a California software vender provided tremendous knowledge of backup technology during the fall schedule. And what about our Members? We have had an excellent web master Dan, updating our web site at CWAUG.ORG. Jeff and Liz keep us up to date with the newsletter, demos, and reviews. We have an active treasury watched by Sylvia who reminds me at times of math mistakes and keeps the books in the black. A commitment of members who give demonstrations showing their skills of particular interesting software sustains CWAUG membership.

Yes 2006 was a very good year for our users group. I only ask you to do your part in having other Mac users join us to make our new year 2007 even better. I look forward in meeting them and especially you at the next meeting.

Sincerely,
Tom Ptak
Central WI Apple Users Group President
